CERTIFICATIONS

- Android Development with Kotlin Fundamentals

INTERNSHIPS

CodeAlpha | April 2024 - August 2024

- During my internship, I gained hands-on experience by actively contributing to various projects and collaborating with a team of developers. My key responsibilities included:

Developing Features: I worked on implementing new features for web and mobile applications using technologies like React, JavaScript, and Java. This involved writing clean, efficient code and integrating APIs to enhance functionality.

Bug Fixing and Testing: I identified, reported, and resolved bugs in the codebase, ensuring smooth application performance. I also participated in testing processes, including unit and integration testing, to maintain high-quality standards.

Database Management: I assisted in optimizing database queries and managing SQL databases, which helped improve application speed and reliability.

Learning and Adapting: I constantly learned new tools and technologies, adapting quickly to the project's needs. This proactive approach allowed me to contribute effectively and stay

PROJECTS

Virtual Herbal Garden | March 2025 - May 2025

- The Virtual Herbal Garden project is designed to provide users with an interactive and educational platform to explore a wide variety of medicinal and culinary herbs from the comfort of their homes. This application aims to bridge the gap between traditional herbal knowledge and modern digital accessibility.

Latest News Application | May 2024 - July 2024

- This project focuses on developing a user-friendly news application that provides users with up-to-date news from various categories and sources. The application aims to deliver personalized and relevant news content, ensuring users stay informed about the latest events and trends.

Food Delivery Application | April 2024 - August 2024

- This project involves developing a food delivery application that connects users with a variety of restaurants. The app allows users to browse menus, place orders, and have food delivered to their doorsteps.

ACHIEVEMENTS

- Chess Competition in B.Tech/B.E.
